

CROP PERFORMANCE

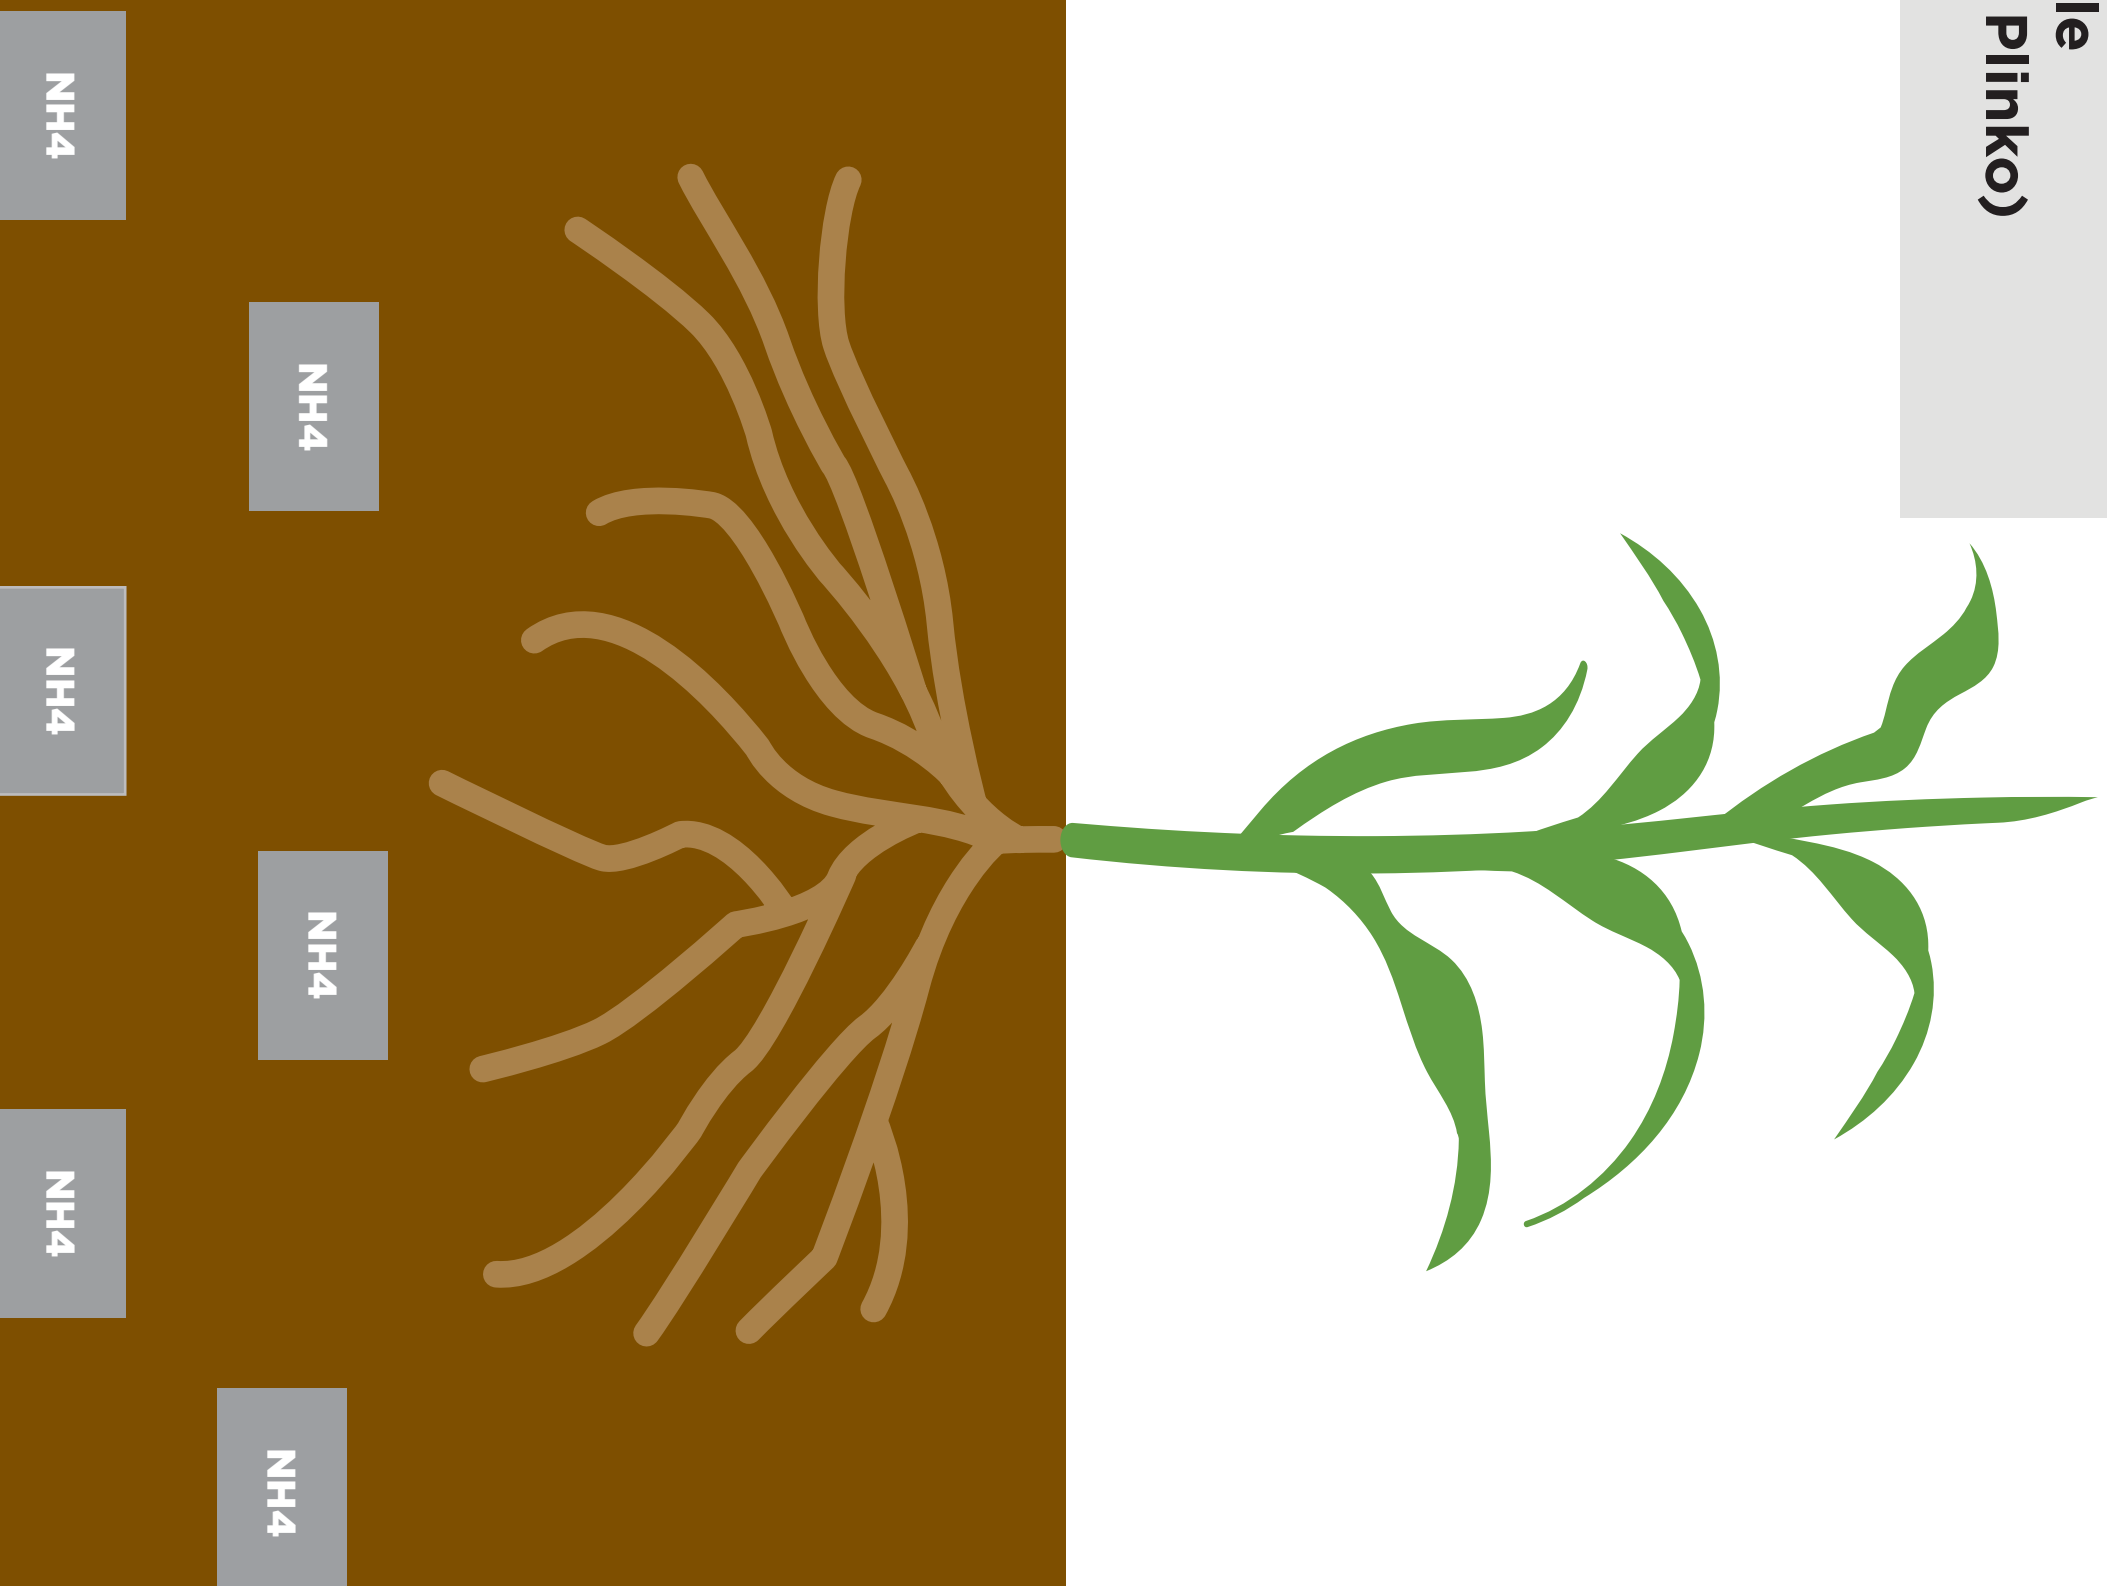

BIOFRIENDLY NITROGEN MANAGEMENT

MICRO-CHAIN TECHNOLOGY IN N-GEAR® DUAL ACTION & MAINTAIN™ ELITE

Micro-Chain Technology captures and maintains more nitrogen in the upper root zone, increasing nitrogen uptake and utilization. The NH₄ molecules are more densely packed, leading to more binding sites to limit nitrogen loss.

Competitor product and untreated Nitrogen placement in the soil profile (like a game of Plinko)

KEEPING NITROGEN IN THE UPPER PORTION OF THE SOIL PROFILE

Maintain Elite & N-Gear Dual Action polymer treated nitrogen captures nitrogen in the upper inches of the soil profile.

UREA WITHOUT STABILIZER

UREA TREATED WITH N-GEAR

Urea applied at planting 5/16
