2027 SOYBEAN REPLANT DEALER PROGRAM

Meristem's Soybean Replant Program is available on acres aligned with purchases of:

Hopper Throttle MaxStax Soybean copack*	\$60/acre
Hopper Throttle Soybean F+I copack*	\$20/acre

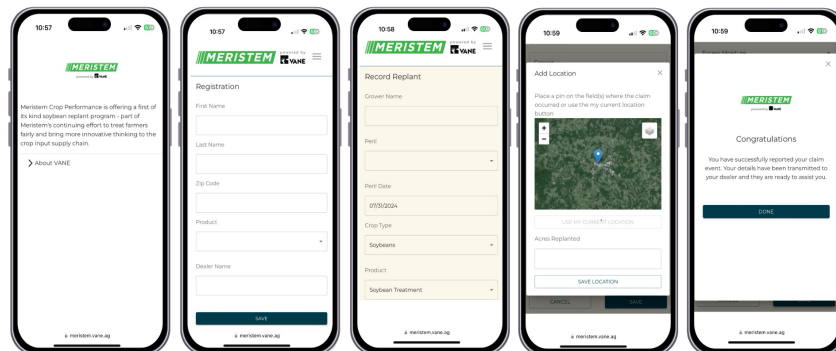

All replant program requests must be submitted from dealership through Meristem SSM by July 31, 2027.

To participate in the program:

1. Contact your Meristem SSM or sales representative. Your SSM will complete the request for you with information you provide.
2. Please note:
 - A field location is required for each replant payment request.
 - If you plant before your state's earliest planting date for early crop insurance, you are void. Specific earliest planting date will be verified by adjuster.
 - Double-crop soybeans will be covered if submitted ahead of deadline.
 - Claims not submitted through SSM by the July 31, 2027 deadline will not be eligible for credit.

Once Meristem.Vane.ag approves your replant request; your dealership will receive a credit to your dealer account. It is the dealer's responsibility to then provide growers with payment. The total acreage for a replant payment request may not exceed the total acres of eligible products sold by that dealership.

- Replant program requests not approved by Meristem.Vane.ag will not be paid.
- A request submission is not a guarantee of payment.
