 EXCAVATOR AMS NUTRIENT RELEASE & COSMOSOLAR MICROBES PLANT GROWTH REGULATOR CYCLESRIKE LR BioFlex.	Preplant or Post-Harvest	32 oz/A	Excavator® AMS + CycleStrike™ LR + BioFlex™ is an all-in-one blend of water conditioning agent (ammonium sulfate) and surfactants that aids in fertility, nutrient release and residue breakdown. CycleStrike™ LR uses microbes to speed nutrient release and residue breakdown, delivered through Bio-Capsule™ Technology to keep microbes active and alive until use. BioFlex is a specialty water pre-treatment that neutralizes the negative effects chlorine has on biological ingredients.
 HOPPER THROTTLE SOYBEAN MAXSTAX PLANTER BOX TREATMENT PROTECTIS BORNEX METALAXYL ETHER GUARD PREPHYTE	At Planting	1 pail treats 40 units of soybeans at 140k seeds per unit.	HT MaxStax Soybean copack is powered by Meristem's patented Bio-Capsule Technology giving farmers an easy-to-use system to deliver multiple, EPA-registered controls & other inputs via seed fluency. The copack includes the Metalaxyl ST, Prephyte ST and Bornex biofungicides, GuardC bionematicide, Protectis beauveria bassiana microbe, Revline biostimulant, and multi-strain bradyrhizobia inoculant in addition to the base pail of seed fluency and IonLock™ Zn, Fe & Mn with Ether Enzyme Technology (lipase and mannanase). **Ask about Meristem's \$60/acre replant program on this product.
 REVLINE EARLY-SEASON PLANT GROWTH REGULATOR EPA Reg. No. 57538-54-95552	Vegetative Stages	2 oz/A	Revline® Early-Season contains two plant growth regulators found in nature that stimulate seeding and plant growth and improve root development. It also contains vitamins that aid transplanting.
 HARVESTSHIELD EVO STRESS-MITIGATING ADVANCED NUTRITIONAL	V3-R1	1 qt/A	Harvestshield™ Evo is specifically formulated to protect and reduce yield loss of crops under abiotic stresses conditions such as drought, low or high temperature, deficient or excessive water, high salinity, heavy metals, and ultraviolet radiation.
 HOMESTRETCH NKB-S EVO NUTRITIONAL	R1-R5	1-2 qt/A	Homestretch® NKB-S Evo is a foliar designed to enhance yield and promote stress relief by combining two highly soluble and usable forms of potassium, along with boron and sulfur. Additionally, dextrose and fulvic acid promote plant vigor and speed plant uptake.
 REVLINE LATE-SEASON PLANT GROWTH REGULATOR EPA Reg. No. 90866-23-95552	R1 - R5	12.8 oz/A	Revline® Late SeasonX is a plant growth regulator for enhancing shoot and root growth, photosynthesis, abiotic stress resistance, and mineral uptake. Fortified cytokinin delays senescence and supports reproduction, GABA helps the plant respond to stress and maintain metabolic function, and choline chloride supports stress resilience.
 AQUADRAFT EXTREME WATER CONDITIONER & SURFACTANT - 0.01%		20 oz/A	Aquadraft® Extreme is a blend of water conditioning agent (ammonium sulfate), surfactants, drift reduction agents and humectants. Contains antifoaming agent to minimize foaming. Enlist™ approved
 TRUTRACK COMPLETE HIGH-DRIFT-REDUCING COMBINATION OF INSECTICIDE, FUNGICIDE, HERBICIDE, SURFACTANT & ADHESIVE		Fungicide & insecticide: 6 oz/A Herbicide: 3 oz/A Aerial: 0.3% v/v	Trutrack® Complete adjuvant is a premier drift reduction and deposition agent for use with herbicides, insecticide and fungicides. Trutrack Complete helps optimize deposition and droplet adhesion, which reduces bounce and increases droplet spreading for improved contact, coverage and canopy penetration. Enlist™ approved
